* NOTE: The Predefined Qualitative Characteristics Matrix is EXCLUDED from the 50-page limitation for this section.

1. Title pages and tables of contents are excluded from the page counts specified in paragraph (b) of this provision. Additionally, all sections of the proposal that are not page limited shall be strictly limited to only the information as requested by this solicitation for that section. Information that can be construed as belonging in one of the other sections of the proposal will be so construed and counted against that section's page limitation, if applicable. Should offerors choose to include an Executive Summary and/or Compliance Matrix, these will count against the above listed page limitations.
2. A page is defined as one side of a sheet, 8 1/2" x 11", with at least one-inch margins on all sides, using not smaller than 12-point type. No smaller than 8-point type may be used for graphics and tables. Foldouts count as an equivalent number of 8 1/2" x 11" pages. The metric standard format most closely approximating the described standard 8 1/2" x 11" size may also be used.
3. If final revisions are requested, separate page limitations will be specified in the Government's request for that submission.
4. Pages submitted in excess of the limitations specified in this provision will not be evaluated by the Government and will be returned to the Offeror.
